

GE Firmware Download Area

- <https://www.gegridsolutions.com/communications/mds/software.asp> is the link to the download page.
- No login or signup is required to download files from the website.
- There is no option to search to download the required firmware from the website.
- All the products are categorized as:
 - New Products
 - Point-to-Multipoint
 - OEM Series
 - Network Management
 - Discontinued Products
- All the modules need to be crawled as per our requirements.
- There are documents and firmware files on the product page.
- When it is clicked, the file is automatically starts downloading.
- There is no need of special functionality the crawler has to provide (FTP; user login; extract URLs; ...)
